DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 28-79.

This application is in condition for allowance except for the presence of claims 28-79 directed to an invention non-elected without traverse. Accordingly, claims 28-79 have been cancelled.

Allowable Subject Matter

Claims 1-27 are allowed.

The following is an examiner's statement of reasons for allowance:

Pacing a patient's heart using a plurality of different pacing intervals at each of a plurality of different body positions and measuring a corresponding hemodynamic response for each interval as claimed is not taught nor suggested by the prior art of record. These features contrasts with measuring the hemodynamic response of a paced heart as disclosed in U.S. Patent Application 10/786,792 which claims do not appear to be obviously modifiable to include different pacing intervals at each of a plurality of different body positions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Manuel whose telephone number is (571) 272-4952.
